This view will not be endorsed by the gambling gentlemen, but if it were generally held there would be less prejudice against the

The Women Prohibitionists Divide. Mrs. J. Ellen Foster and the other Iowa delegates, followed by others of the same opinion, have been driven out of the Women's Christian Temperance Union by the declaration of that body that it is the champion of the Third Party. The declaration is honest and states no more than everybody knew before it was openly proclaimed. The women who withdrew were right to leave an organization with which they are no longer in sympathy. Their action will be followed by members elsewhere who do not prefer politics to temper

It may be that this calamity will suggest to philanthropists whose lives are a guarantee of good faith and business capacity an organization ready at any mo-ment to take in hand the distribution of a great charitable fund. Possibly the scope of the Red Gross Society might be enlarged for this purpose. The cost of maintaining a skeleton form of organization, to be filled in as emergencies should rise, would be much less than the waste of charity applied by unskilled hands.

The Telegraph Controversy. The President of the Western Union Telegraph Comgany makes a dignified and strong reply to the Postmaster Gen-eral. Nome Treatment.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and austachian tubes. Microscopic research, however, has proved this to be a fact, and the result of the discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. Criticized for Recalling Dark Days in These
Times of Universal Brotherhood.

New Fort Hirads.

The speech of Cardinal Gibbons before
the Catholic Congress at Baltimore yesterday was a prose poem. It was full of the gentle, but courageous, the lovable and heroic personality of the man who uttered it. It was the result of profound religious conviction, mingled with patriotic fidelity. The immense audience listened with willing ears, rapt attention and open hearts. In a word, it was all the magnificent occasion called for. May we be permitted to say, however, that the speech of our eloquent friend, Mr. Dougherty, was hardly attuned to the concert pitch of the Cardinal. He carried his audience back to the persecutions of colonial days and drew a sombre picture of the hardships to which Catholics were subjected.

It is all true, but, alas! there was no class of people in this country at that time which had not suffered at least equally. The colonists were all men with the brand on their brows. These shores represented one prolonged cry of distress. Every grave was practically the grave of a martyr for conscience sake.

But those days are happily gone; let uttered it. It was the result of profound

sake.

But those days are happily gone; let us not recall them. Brotherhood has supplanted sectarian hatreds, and throughout the length and breadth of the land every one is free to worship as he wills. Catholics and Presbyterians live in amity, and the old denunciations are heard no more.

are heard no more.

We give our greeting to that congress with the belief that its discussions wil widen the scope of the Church's influence and increase the loyalty of its constituents to itself and to the country.

Democrats and the Labor Vote. The Free Trade Democrats now command about 75 per cent of the vote among the "organized labor" of the citie and towns of the United States—the workmen engaged in pursuits directly and indirectly highly protected by the tariff, but who have been induced to become Free Traders. They have A child died, the body was immediately removed, the father alone being allowed to attend the funeral, and finally the family were removed from their house and isolated in tents.

These military measures are described as harsh. They were certainly prompt and intelligent, and if the spread of the disease be prevented, the measures called harsh will be shown to have been only reasonable and just. The way to deal with a contagious disease is to throttle it in the beginning.

The Hottom Hall on Top.

Our own John L. Sullivan scorns the suggestion that he shall put up his fists against Peter Jackson, the Australian negro who has just covered himself with fistle glory by whipping Jem Smith, the pride of England, in about five minutes. Sullivan has said that he is ready to meet any real fighter who is able to stand up rgainst him long enough to make it interesting, always provided the purse be large enough to warrant the exertions of an operator of his grade.

Unfortunately for Mr. Sullivan there

the purse be large enough to warrant the exertions of an operator of his grade.

Unfortunately for Mr. Sullivan there is in the conditions of championship of the prize ring no such clause as, black man barred. He will, therefore, have to meet the black man on the equality of the greensward, or throw up the belt. Then the bottom rail would be on top, indeed. Whither are we drifting? "And is the Cancasian played out?"

The Contest Committee's Report.

It would be interesting if it were hereafter to be established on unimpeachable testimony that the majority report of the Gubernatorial Contest Committee was prepared by one not a member of the committee. Yet this is just what seems about to be done. The compliment in this to the majority of the services of an effect, and refer the eight hour day are also insisting on free trade—the system which has ing the eight hour day are also insisting on free trade—the system which has one fee trade—the system which has been the dispair of the eight hour advocates in England. To make the matter worse Great Britain and the United States manufacture the same kind of articles and in the absence of articles.
